

Advanced NAT

AVIATRIX DCF FOR NAT

Problem Statement

Private workloads need internet access

- SaaS integration

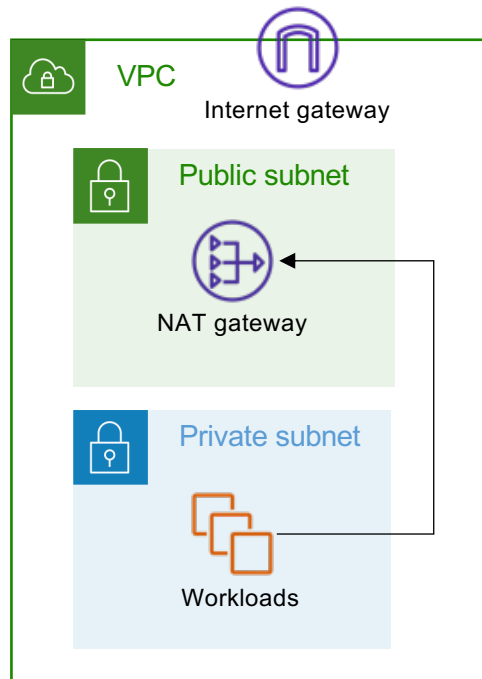

- Patching

- Updates

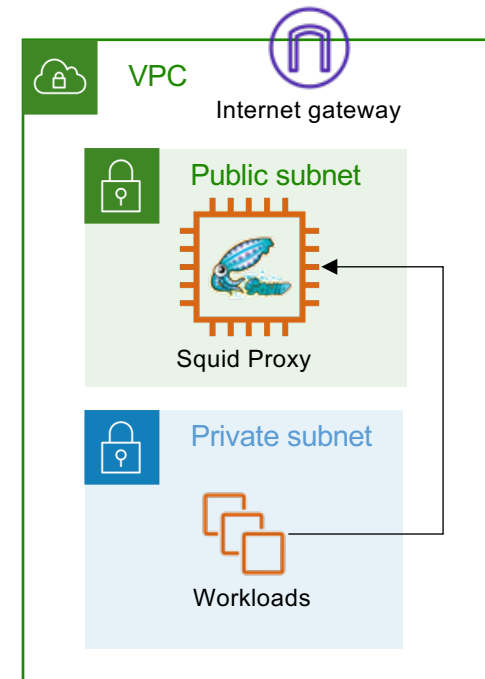

NAT Gateway

- NACLs are necessary
- Unrestricted access

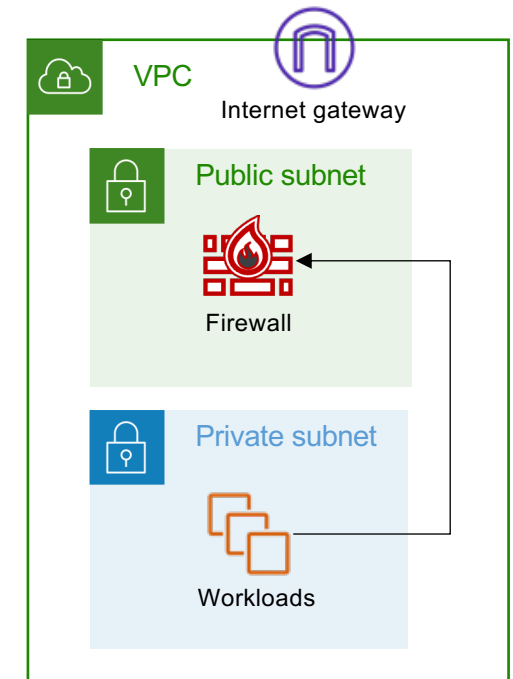

Squid Proxy

- Hard to manage
- Scale and HA issues

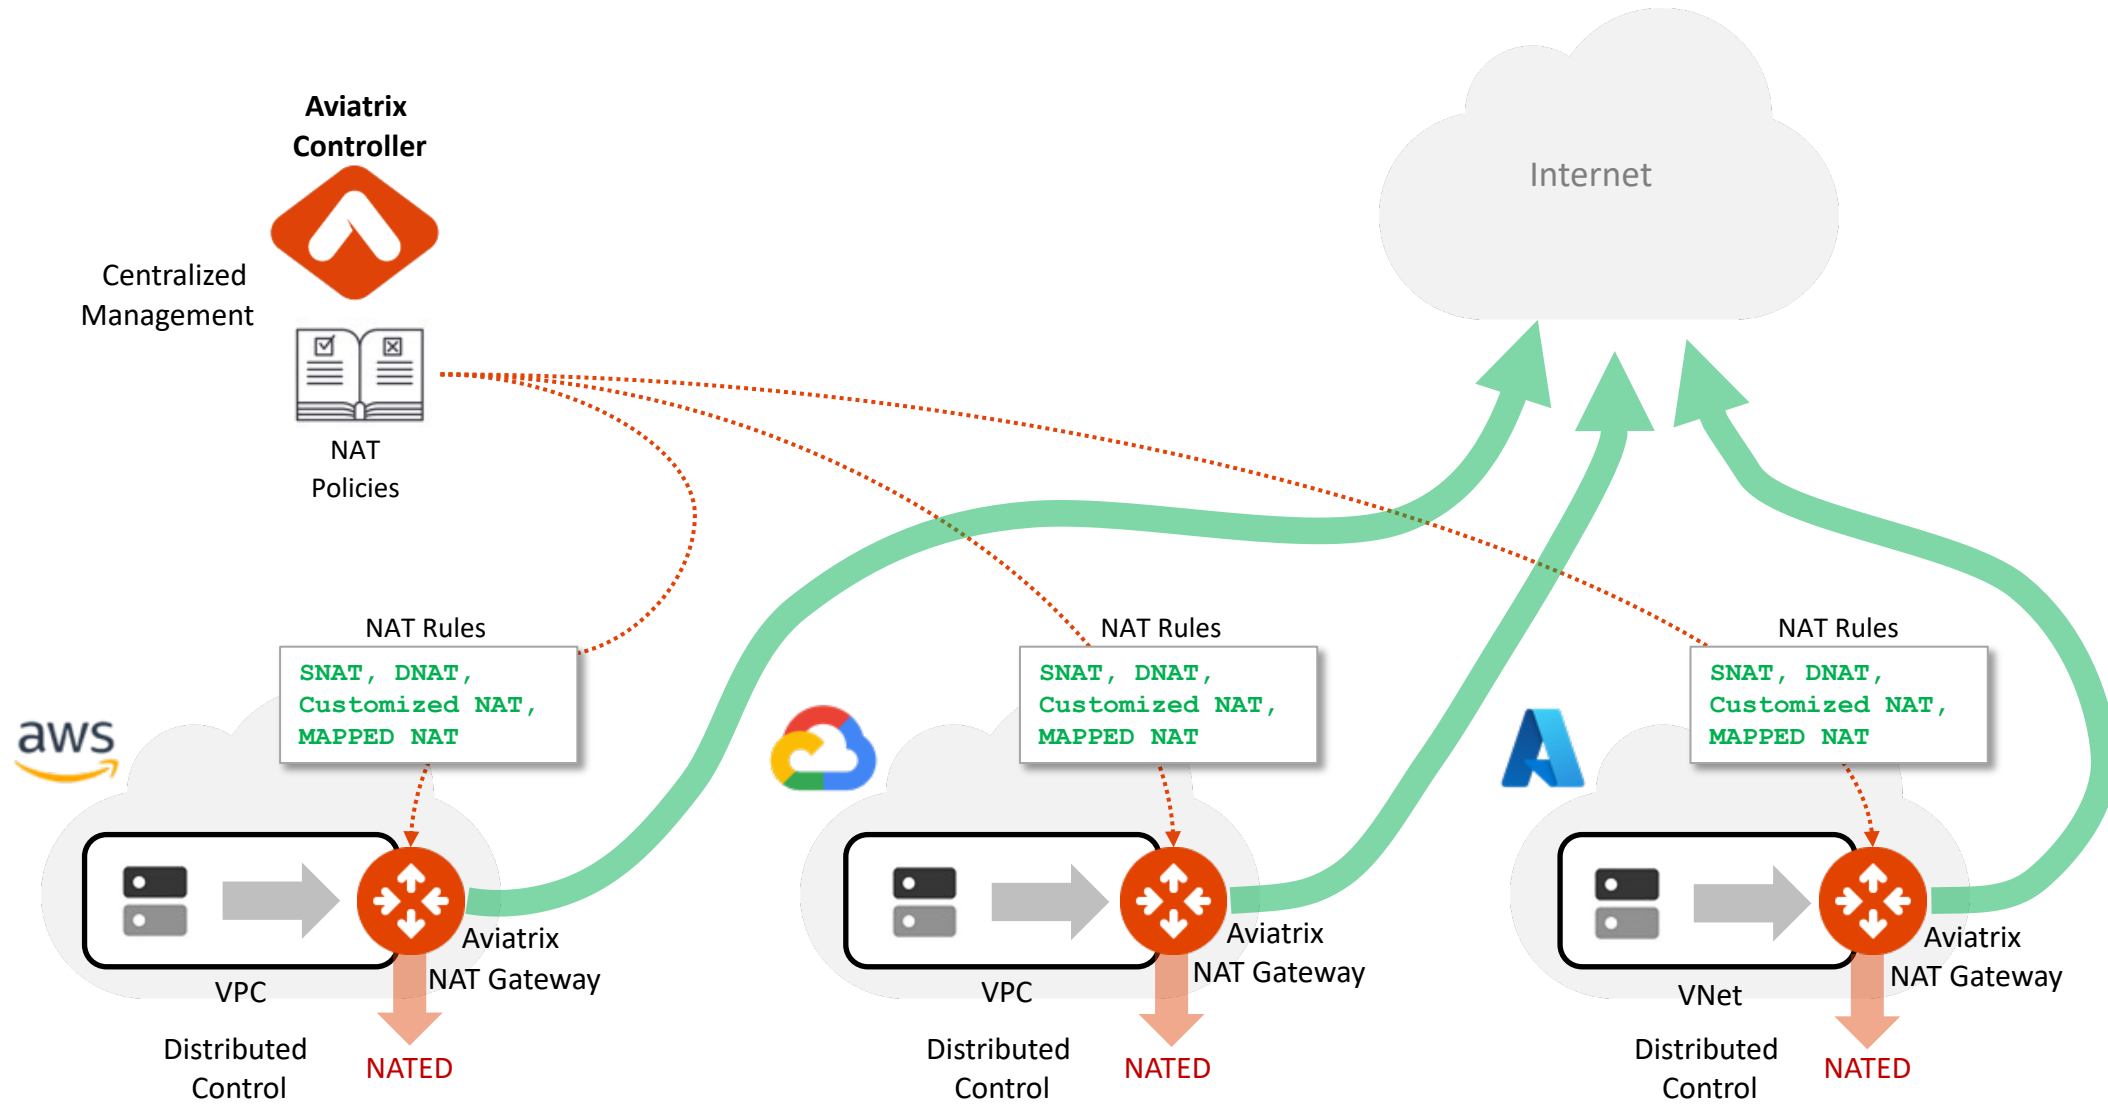

Layer-7 Firewall

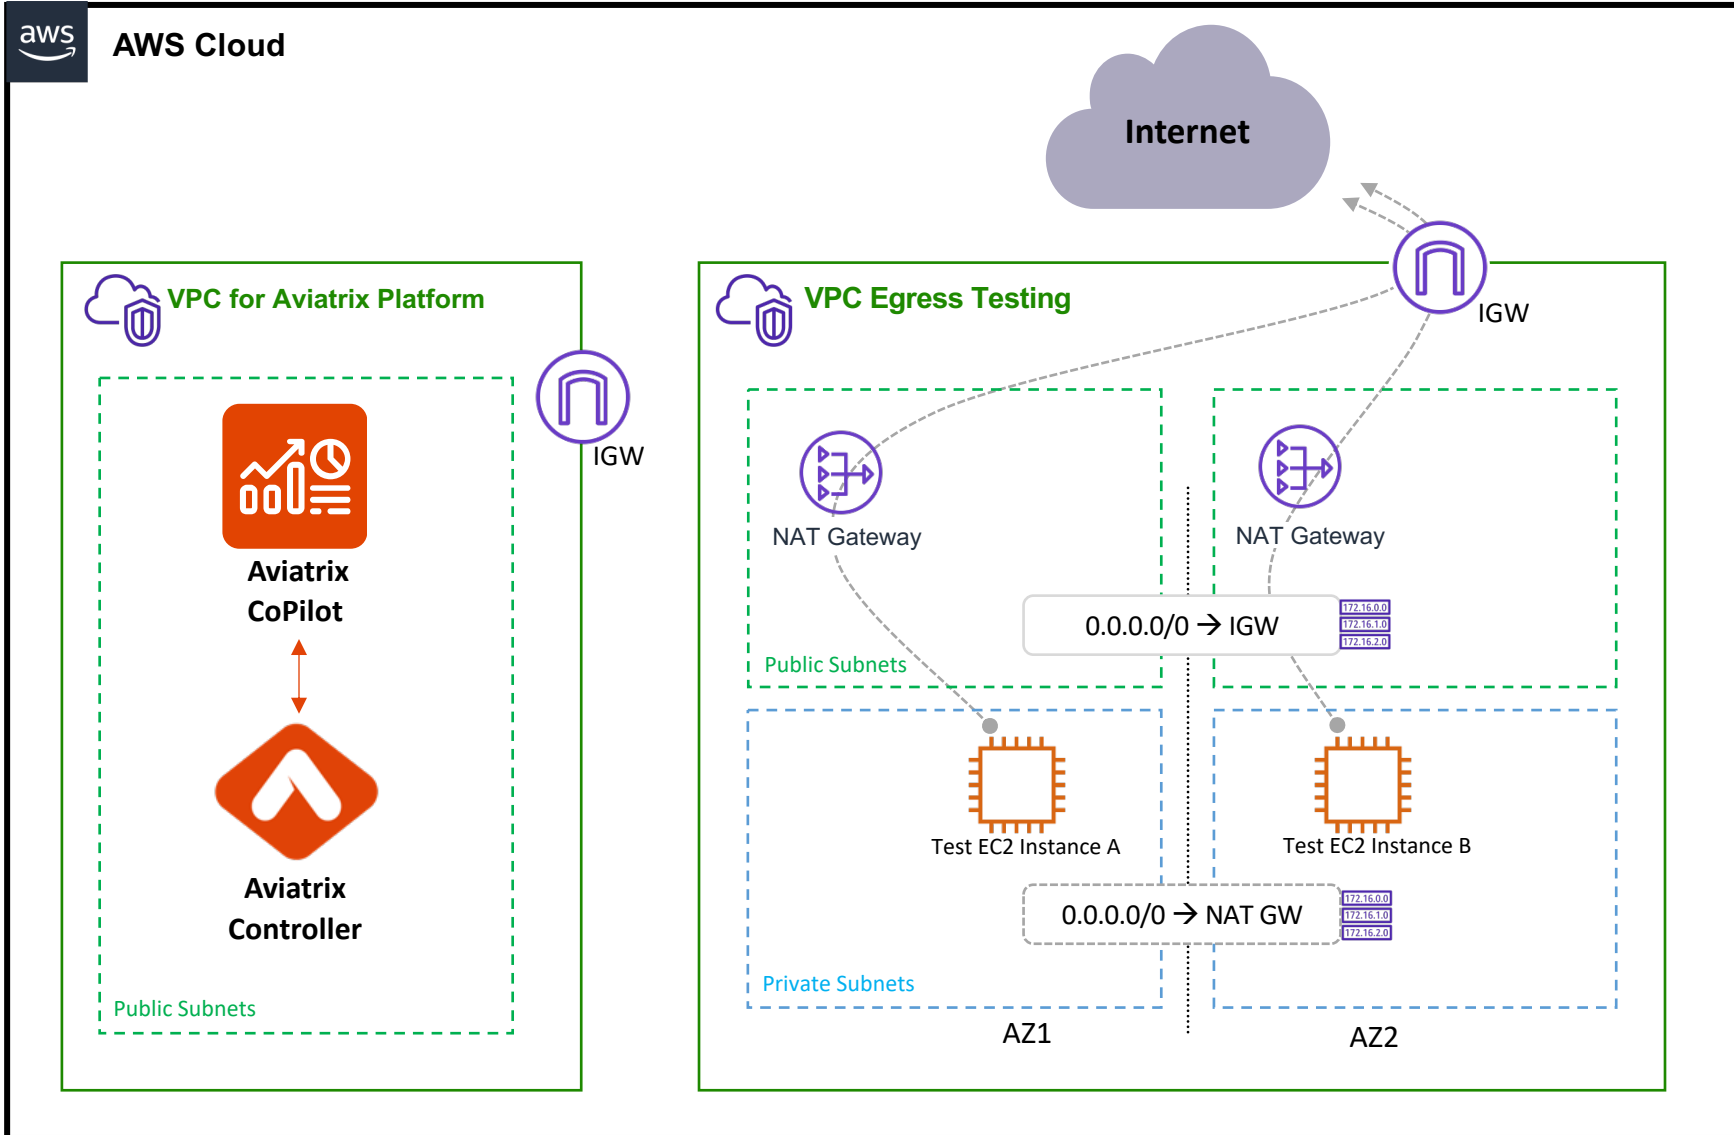

- Overkill
- Expensive

Centralized NAT Policy – Distributed NAT Enforcement

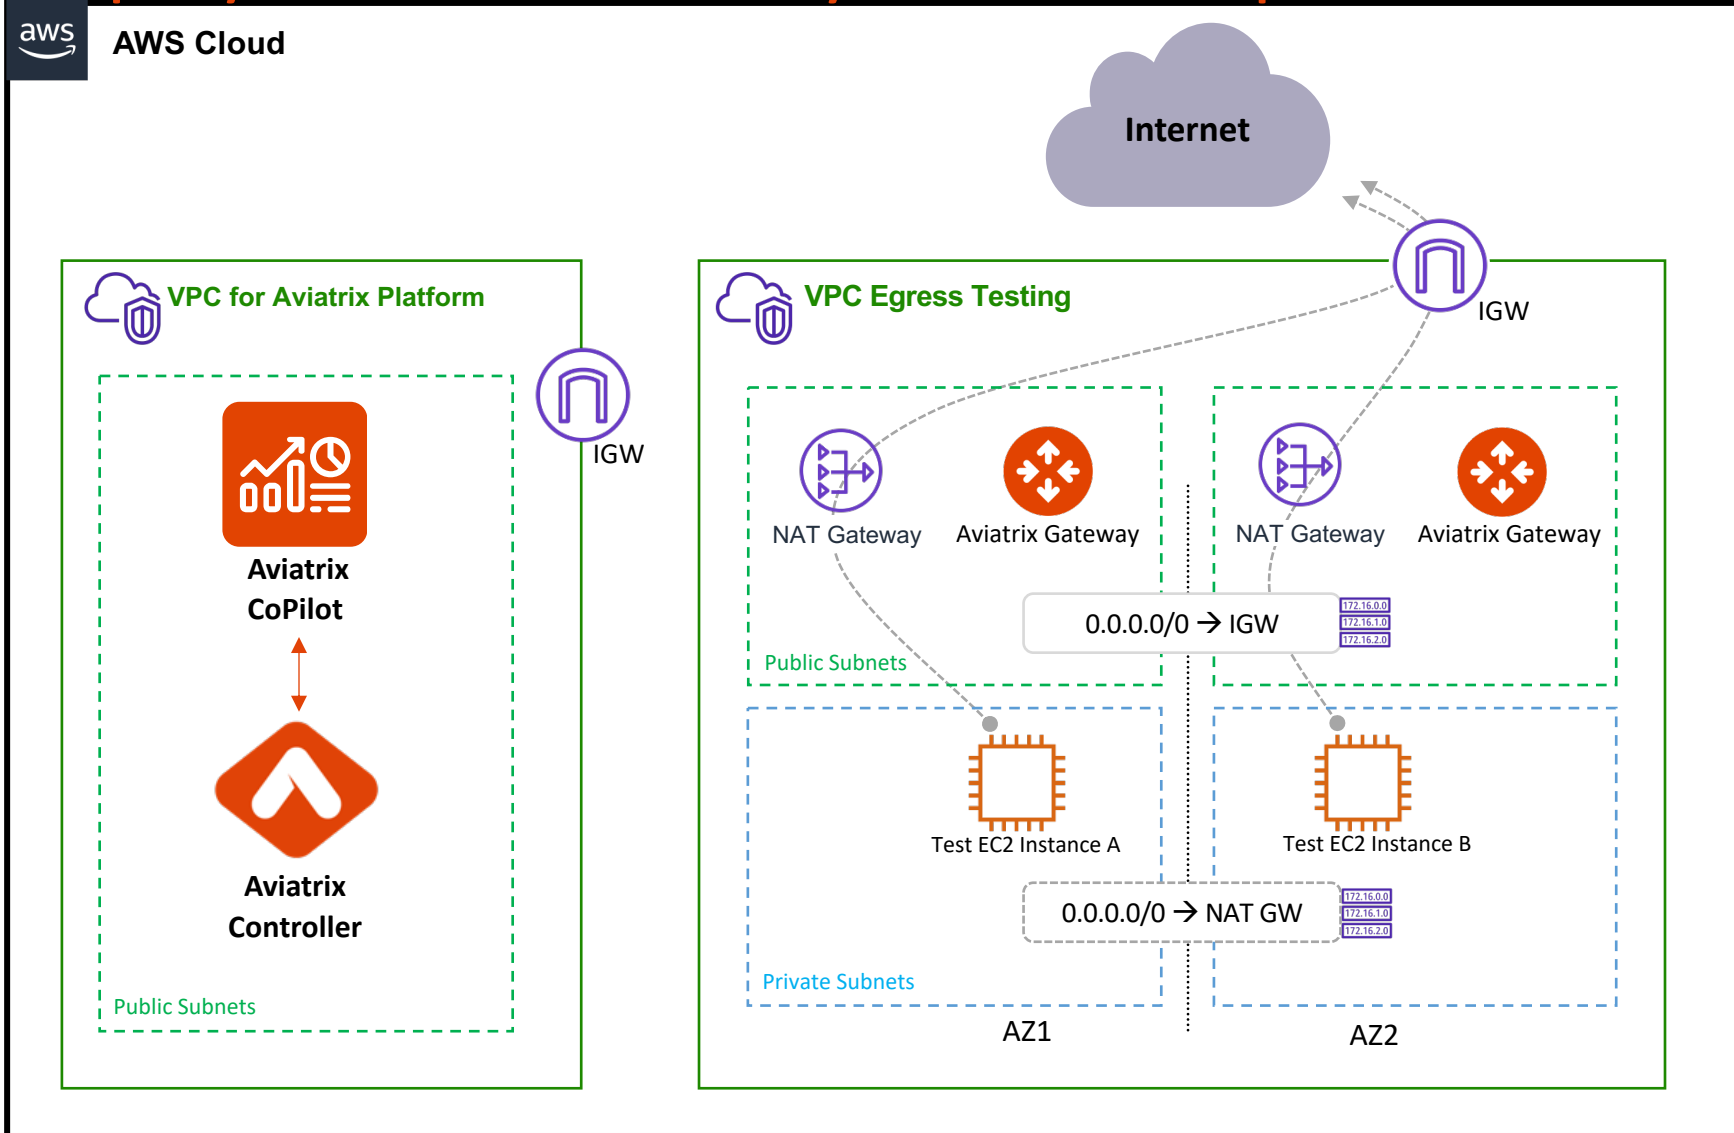

Brown Field Scenario

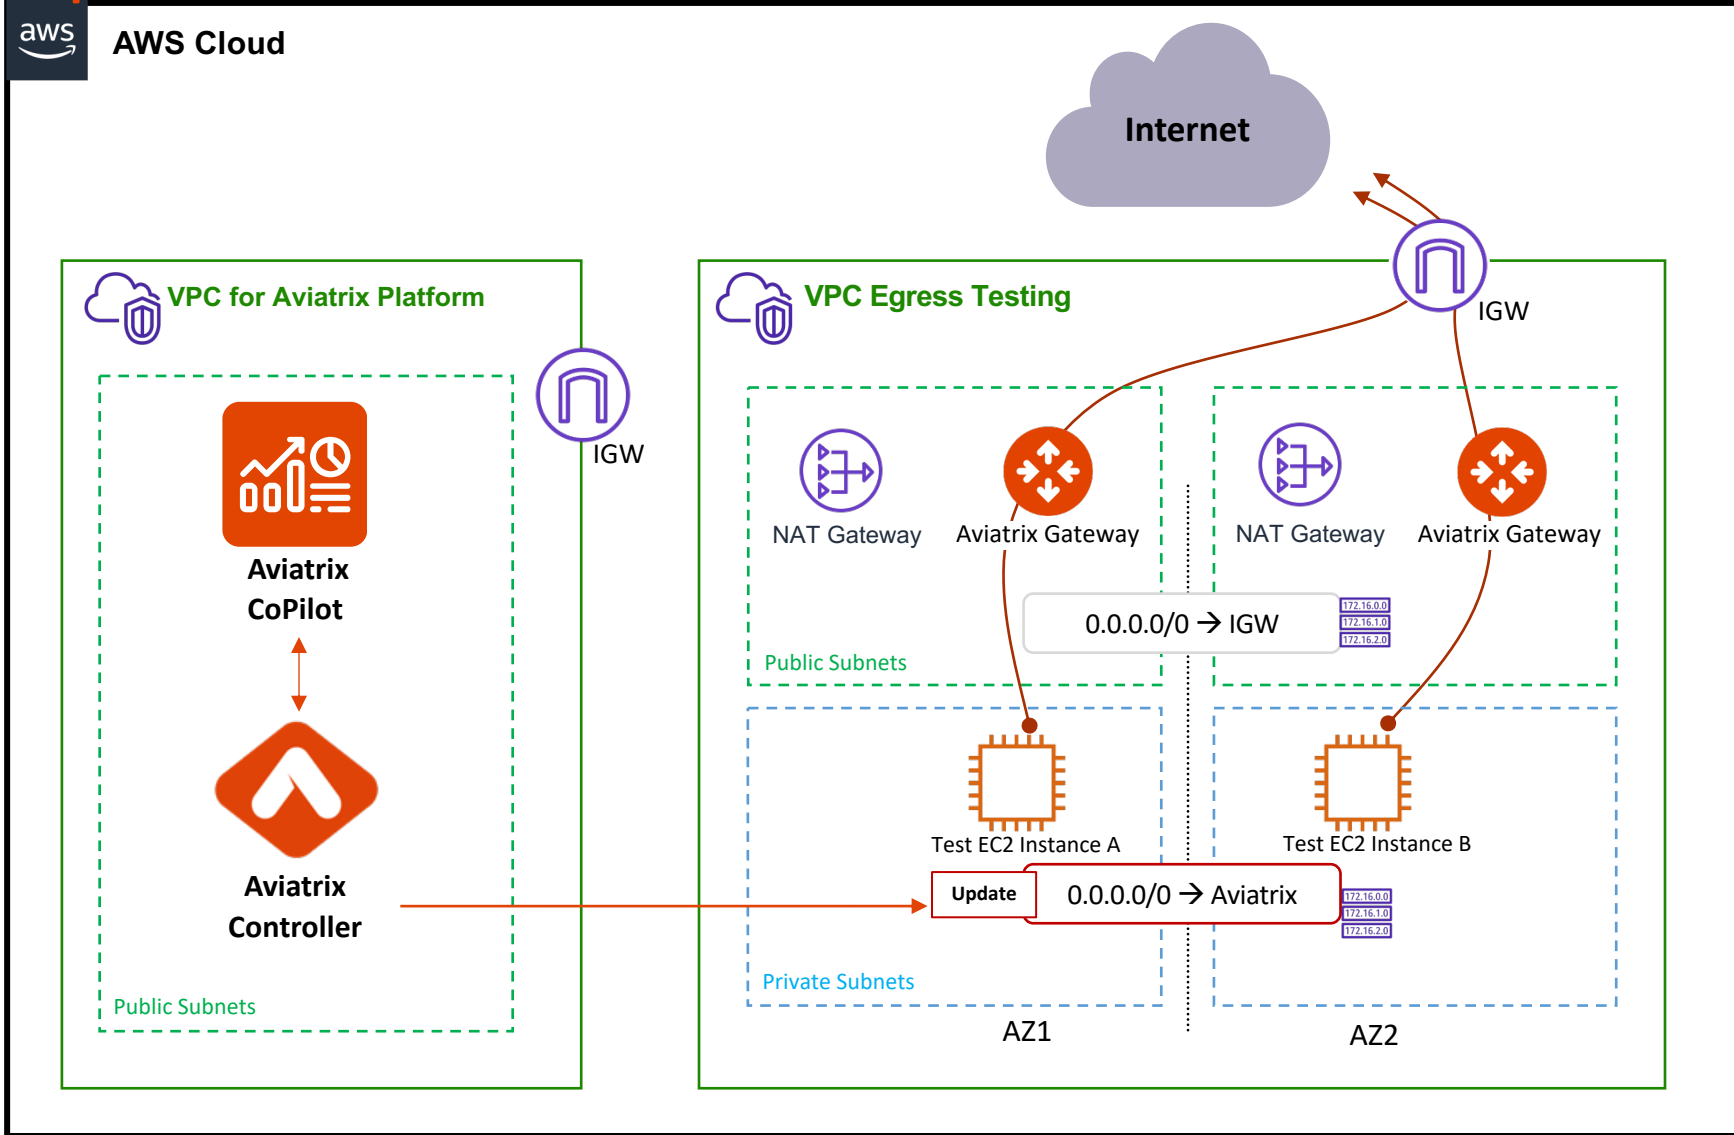

- ✓ Patches
- ✓ Updates
- ✓ Code repos
- ✓ SaaS
- ✗ Anywhere

Deploy Aviatrix Gateways – no disruption

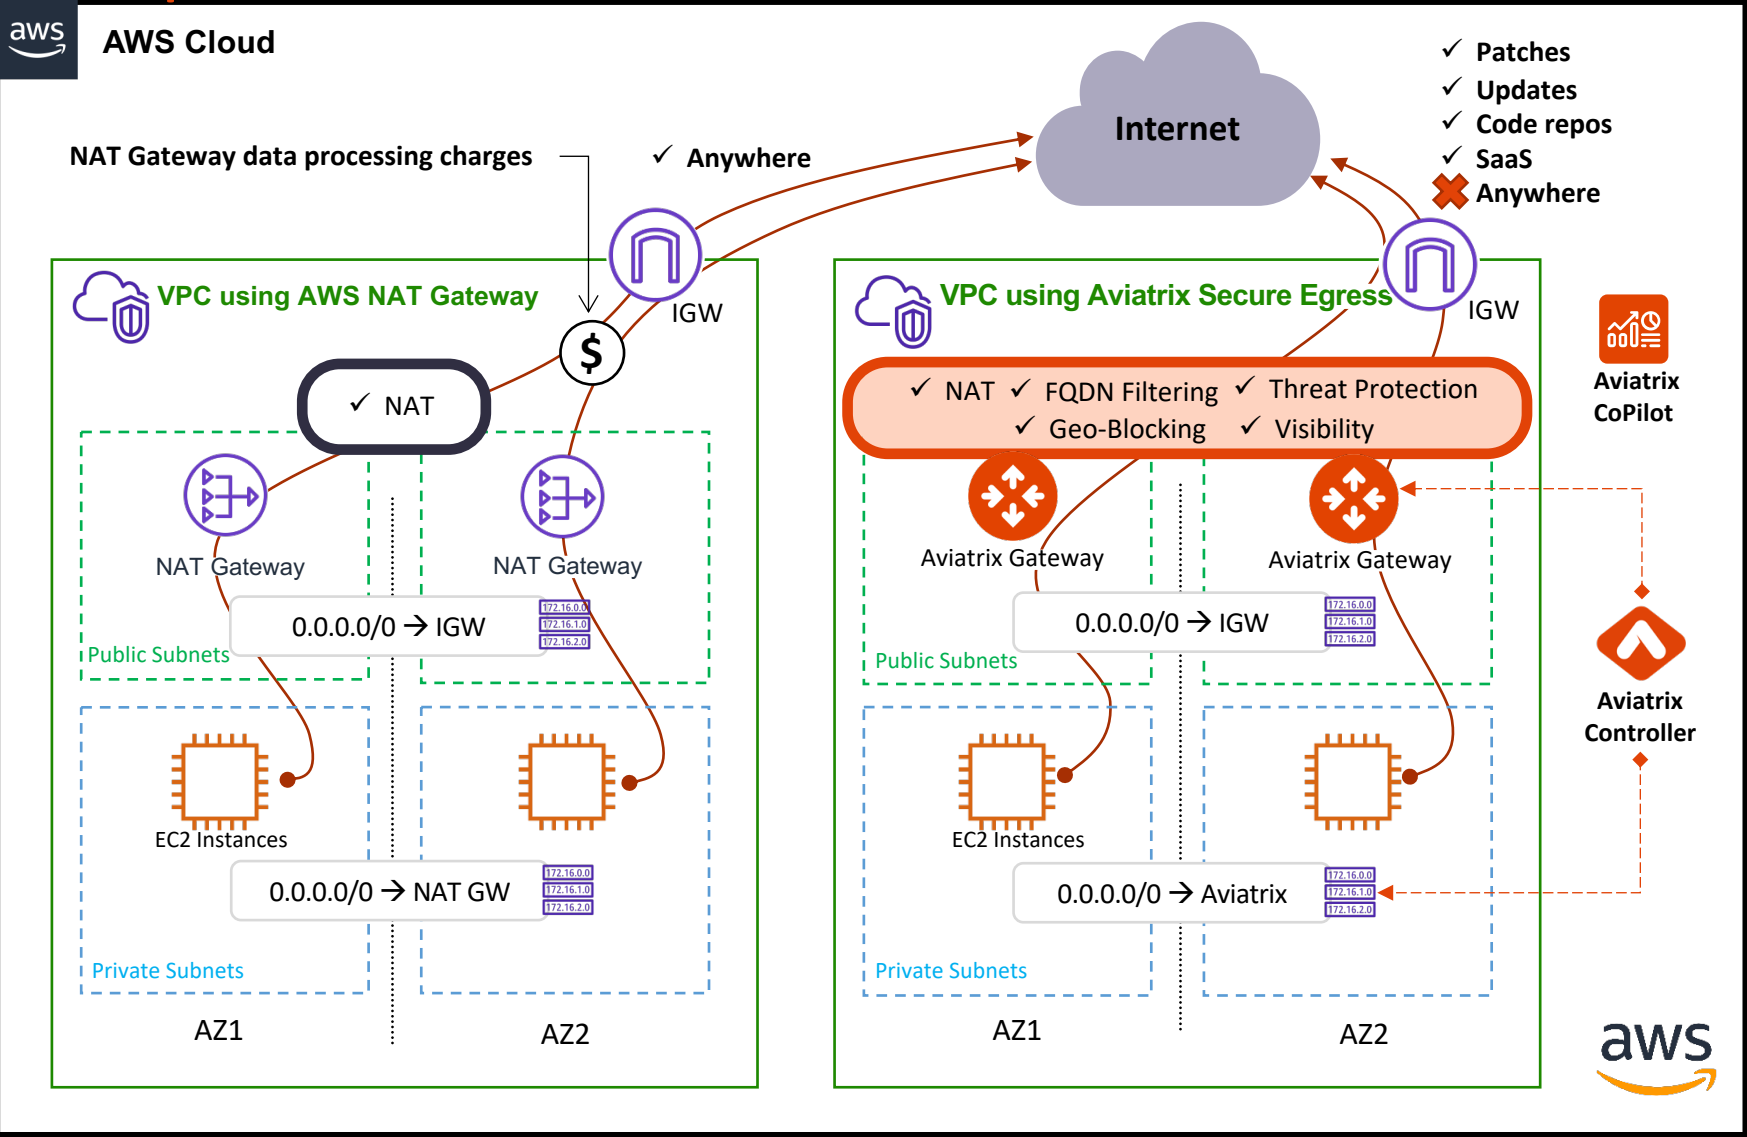

- ✓ Patches
- ✓ Updates
- ✓ Code repos
- ✓ SaaS
- ✗ Anywhere

Update the Default Route Table towards Aviatrix NAT GW

Comparison - Cost Effective and Visible
